

5 Security Tips for Working Securely from Home

FOR DYNAMICS GP
CUSTOMERS

April 23, 2020

Security Challenges in a Pandemic

- Very Little Time to Prepare
- Everyone. All at Once.
- Massive increase in Surface Area
- Non Standard Software and Procedures
- Panic and Chaos
- Surge in Cyber Attacks

Security Challenges in a Pandemic

**“This may be the most
dangerous time to be online,”**

--Daniel Markuson, a digital privacy expert at NordVPN Teams

1. Make sure your Remote Desktop is Secure

- Secure
 - Remote Desktop Gateway
 - VPN to your Office
- Not Secure
 - Opening RDP Port 3389 on your Firewall
 - Changing the RDP Port

2. Don't Click that. Just. Don't.

- 667% Increase in Coronavirus Phishing Attempts in March 2020
 - Coronavirus Relief Checks
 - Centers of Disease Control
 - You have a new Voice Mail
 - Track a Package
- Spear Phishing is also on the rise

3. Protect your Home Network

- Your Home Network is now a new Attack Vector
- Have a separate WiFi router for Work
- 16-24 Character Admin Password
- 16-24 Character WiFi Password
- Network Name don'ts (SSID)
 - Don't use the default
 - Don't use your Name, Address or Phone Number

3. Protect your Home Network

- Turn off:
 - Plug 'n Play (UPnP)
 - Remote Management
 - WiFi Protected Security (WPS)
- Turn On:
 - Router Firewall
- Keep the Router Firmware Updated

4. Don't be a Victim of Zoomboming

- Set Meeting Passwords
- Use Random Meeting IDs
- Enable Waiting Room
- Control who can Share and Chat
- Lock the Meeting
- Use Microsoft Teams instead

5. Work is for Work

- Don't Share Your Work Computer with:
 - Your Kids
 - Your Partner
 - Anyone
- Your Work Computer should not be used for:
 - Gaming
 - Streaming
 - Chatting
 - On Line School

Transaction Mapping

Match the transactions from your bank to transactions already existing in Dynamics GP by dragging and dropping the imported transaction on the left to the GP transaction on the right.

Start Date: MM/dd/yyyy

End Date: MM/dd/yyyy

CheckBookID: Test to checkbook

Show Mapped

Submit

Note:

Remaining transactions can be imported into Dynamics GP into Bank Reconciliation directly. Transactions missing from Accounts Payables should be entered in that module and not imported into Bank Reconciliation.
