Filtered lists for when you have more than one match

Minimal Information required to find what you need with "Begins with" and "Contains" searches

How SmartFill Makes Your *Work Simpler & Easier*®

» For all GP Users this replaces the need to click on the magnifying glass in Dynamics GP, making it quick and easy to search for things.

» Developers and IT Staff - It already comes preset up. So, you don't have to be a developer to work with this product.

» Simple and easy global customizations, including the ability to link tables and create calculated field searches.

» New users can use SmartFill without having to know every little nuance about how things are named in Dynamics GP, as well as your 3rd party solutions.
